

JULY

The mission of the Jackson Free Clinic is to lead in Care, Education, and Outreach through a steadfast commitment to the following principles:

CARE

We provide high-quality healthcare services to underserved Mississippians, prioritizing equity, accessibility, compassion, and respect for our patients' lived experiences.

EDUCATION

We create an inclusive learning environment that fosters growth, collaboration, and interdisciplinary education for both patients and volunteers, regardless of their professional or personal backgrounds.

OUTREACH

We extend our impact beyond the clinic's walls by building meaningful community partnerships and addressing the social determinants of health through supportive services and advocacy.

Throughout June, we cared for hundreds of patients across our medical, dental, pharmacy, and specialty clinics, offering services such as telehealth, PT/OT, ultrasound, vision, and social health services.

We are incredibly grateful for the many volunteers, including healthcare providers, students, and undergraduate volunteers, for generously giving their time and expertise to serve our patients and community.

We continued connecting with our community through outreach events like Shower Power, Stewpot, We Will Go, and numerous community health fairs, giving us the opportunity to share resources, education, and support.

In the Community

Outreach was extremely busy this June! During one of our events, JFC partnered with UMMC Family Medicine for the Mt. Elam Baptist Church Health Fair, where over 20 attendees were screened!

STUDENTS MAKING A DIFFERENCE

This year, the Madison Central High School Student Government Association selected Jackson Free Clinic as its annual spring philanthropy project, demonstrating how young leaders can make a meaningful impact in our community.

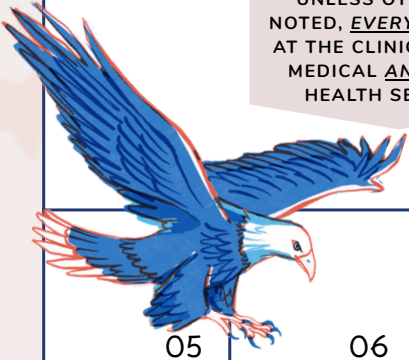

After learning about the clinic's mission and the patients we serve, the students organized a schoolwide kickball tournament and fundraising effort to collect hygiene supplies for our outreach programs. Thanks to their hard work and the generosity of the Madison Central community, they donated more than **2,800 hygiene items**.

In June, the SGA visited JFC to put those donations into action by sorting supplies and assembling individual hygiene kits for men, women, and dental care that will be distributed at future outreach screening events. They also toured the clinic and learned more about the importance of accessible healthcare and community service.

We are incredibly grateful to the Madison Central High School Student Government Association for choosing Jackson Free Clinic as their philanthropy partner. Their generosity and dedication will have a lasting impact on the patients and communities we serve. We can't wait to see all the ways these students continue to serve their community in the years ahead.

JULY 2026

SUN	MON	TUE	WED	THU	FRI	SAT
