OFFICIAL NEWSLETTER OF THE JACKSON FREE CLINIC

SEPTEMBER

The mission of the Jackson Free Clinic is to lead in Care, Education, and Outreach through a steadfast commitment to the following principles:

CARE

We provide high-quality healthcare services to underserved Mississippians, prioritizing equity, accessibility, compassion, and respect for our patients' lived experiences.

EDUCATION

We create an inclusive learning environment that fosters growth, collaboration, and interdisciplinary education for both patients and volunteers, regardless of their professional or personal backgrounds.

OUTREACH

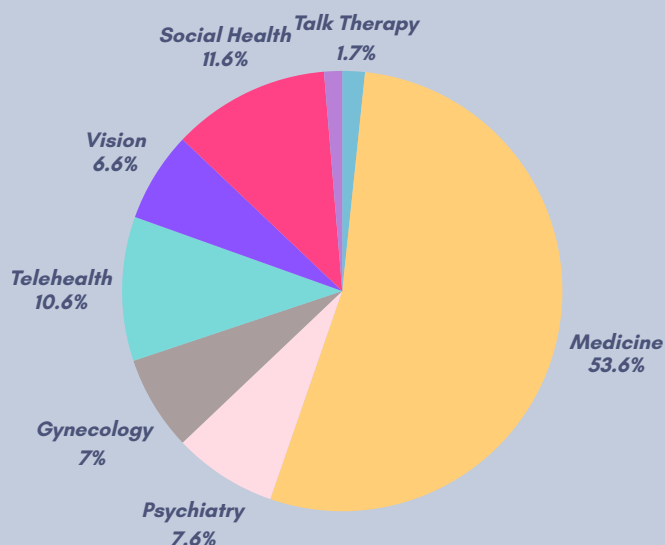

We extend our impact beyond the clinic's walls by building meaningful community partnerships and addressing the social determinants of health through supportive services and advocacy.

IN THE PAST MONTH...

We saw over 309 patients in clinic for medical, psychiatry, pharmacy, social health, telehealth, ultrasound, vision, and rehab visits.

We welcome our new Navigators at Jackson Free Clinic! From Vision and Preventative Health to Lab, Outreach, Patient, and Social Health — we're here to guide, support, and connect our community to the care and resources they deserve.

We had over 158 student volunteers representing medicine, pharmacy, nursing, dental, OT/PT, and undergraduate institutions totaling 3490 volunteer hours.

PATIENTS OF THE JACKSON FREE CLINIC

What are your hopes or goals for the future?
To be successful and live a long life.
Continue to be kind.

What is a piece of advice or life lesson you would share with others?
Just be kind to others.
Keep building.

Hear from Marco, one of our incredible patients here at JFC.

How has the JFC played a role in your journey?
"It's been phenomenal. Intend to help in any way. I've been coming since 2022. They have been so kind to me in diagnosing several things. I tell them everything. They are welcoming."

What is something you are proud of in your life right now?
My children.

Disclaimer: All patient experiences, names, images shared in "Voices of JFC" are published with the patient's written, verbal, and electronic informed consent.
